PREMIER IS RESTING EASY NO COMPLICATIONS EXPECTED

ASSAILS ARMY COURTS

Brigadier-General S. T. Ansell, Acting Judge Advocate of the American Army, appearing before the Senate Military Affairs Committee, bitterly assailed the courts-martial methods in the United States Army, according to a report from Washington. General Ansell cited several instances as samples of military injustice. He related how a young man only twenty-five days in the military service of his country was sentenced to from twenty to thirty years imprisonment for refusing to turn over his cigarettes to a second lieutenant who had reprimanded him for smoking while on "kitchen police" duty. In another case the death penalty was imposed upon an American soldier in France who had pleaded guilty to a charge of refusing to obey an order to drill. The soldier protested that he was ill and physically unable to obey. He was saved by executive clemency.

CONDITIONS AT BREST PRAISED SAYS PERSHING

Insists That Everything Is In First Class Condition Regardless of Criticism

(By Associated Press)
Washington, February 20.—Health conditions at Brest, France; general camp conditions and the method of handling troops through that camp have "received high praise from all who have inspected them since the first formative day," General Pershing reported today to the War Department.

The message said General Pershing himself, General Harbord, his chief of staff, and other army officers had personally inspected the camp during the last month and found conditions at the camp the best ever.

THIRTY YANKS ARE DECORATED

(By Associated Press)
Archangel, February 20.—Thirty officers and men of the American forces in northern Russia were today given French war service for gallant service under French command on the Vologda railway front during the offensive against the Bolsheviks last fall. They were given the medals by the French commander here.

Clemenceau Growing Restless Under Restraint Imposed by Doctors

Chairman of Peace Conference Anxious For Speedy Return to Duty

Probably Will Be Middle of March Before He is Allowed to Proceed

"Tiger of France" Is Difficult Patient

(By Associated Press)

Paris, February 20.—Good news came today from the sick room of Georges Clemenceau where he was being attended for the wound inflicted upon him yesterday by the anarchist Emile Cottin in the attempt to assassinate the French Premier.

While all France and in fact all the world was waiting in suspense for word of his condition the announcement was made that he was resting comfortably and that no fever had developed and that no complications had appeared.

Nothing definite can be known as to what the result of the Premier's injuries are likely to be until an X-ray examination of the wound taken today is examined by the doctors.

The wound is very slight but necessarily serious for a man as old as the French Premier. The physicians however say that his heart and arteries are young and they point to his extraordinary vigor as the hope for his pulling through and completely recuperating.

If the early reports regarding the Premier's condition are borne out by later examinations it would appear that after a period of convalescence he will be able to resume his activities about the time President Wilson and Lloyd George return to Paris. Meanwhile the French Premier's absence takes away the last Premier of the European powers at the peace conference.

His enforced inaction is weighing heavily on the Premier and the doctors find him a difficult patient, unwilling to obey their orders. He insists upon receiving visitors and discussing current business.

Personally Clemenceau is very impatient to resume his place at the head of the conference. To those around him he keeps remarking "It is nothing."

"CAN LICK 'EM ALL" ASSURANCE FROM YANK HEAD

Nothing to Fear About Allied Forces in Russia, Says An American Commander

(By Associated Press)
Washington, February 20.—Colonel George F. Stewart, commanding the American troops in northern Russia, cabled the war department today that "alarmist reports of the condition of troops in northern Russia" were not warranted by the facts.

The health of the entire command is excellent, the report said, and the sick and wounded are being well cared for and "the allied command is capable of taking care of itself against the whole Bolshevik army."

New Plan to Encircle Bolsheviks With New Russian Republic

CAN FEDERATE 30,000,000

Leaders Think New Republic Would Win Confidence of World

(By Associated Press)
Paris, February 19.—George D. Herron has arrived here from Geneva, to consult with Wm. Allen White, his American colleague in the proposed conference with Russian leaders.

There is yet no definite announcement concerning plans for the Russian meeting but indications are that either that program or some other form of conference with the various Russian governments will be arranged.

President Tschalkovsky of the Archangel government and other officials conferred with Secretary of State Lansing and other members of the American peace delegation today concerning Russian affairs.

While leaders representing the various Russian governments, exclusive of the Baltic states, still refuse to participate in the conference.

Boris Savinkoff, minister of war in the Kerensky cabinet, is working on a plan looking to a federation of the various governments encircling the Bolshevik territory. He expects to enlist 30,000,000 people in the various regions in a unified democratic government which will win the confidence of the allies and gain economic and moral support.

WILSON SENDS CONDOLENCES TO CLEMENCEAU

(By Associated Press)
On Board the U. S. Ship George Washington, February 20.—President Wilson has sent the message of condolence on learning of the attack upon Premier Clemenceau:

"Lansing, American Mission, Paris. Please convey to Monsieur Clemenceau my heartfelt sympathy and my joy at his escape. I sincerely hope the report that he was only slightly injured is altogether true. I was deeply shocked by the news of the attack."

"WOODROW WILSON."

MAY SURRENDER CANAL
Columbus, O., February 20.—Designed to pave the way for action by the Federal Government of the Miami and Erie Canal, Representative John H. Chester has presented a bill authorizing the surrender of the canal to the National Government when it cares to construct a large canal between Toledo and Cincinnati.

WILL PUNISH ANARCHISTS

(By Associated Press)
Washington, February 20.—Legislation to punish anarchist activity and the display of flags or other emblems of violence was recommended unanimously today by the Senate Judiciary Committee.

The committee drafted and ordered favorably reported a bill combining the red flag bill of Senator New, of Indiana, and other bills designed to check unlawful agitation.

INVESTIGATING SPREAD OF BOLSHEVISM

INVESTIGATING BOLSHEVIST PROBLEM

The United States Senate has delegated a commission to investigate the spread of Bolshevism throughout the country, according to a report from Washington. Senator Walcott, of Delaware; Senator Overman, of North Carolina, and Senator Nelson, of Minnesota, shown in the photograph from left to right, were appointed to compose the commission. They will make an investigation of Bolshevik activities here and return a decision to the Senate.

FRANCE BUYS RAIL EQUIPMENT FROM FIRMS IN UNITED STATES

PARIS, FRANCE, FEBRUARY 20.—(Associated Press)—France, as a result of the war, finds itself short of 3,000 locomotives and 100,000 cars, while the transportation material that is still nominally on the active list is badly out of repair. The shortage of rolling stock has become very acute lately, for the number of locomotives and cars out of commission for various defects has increased since July last by 19 and 39 percent respectively.

To meet the growing difficulties in the matter of repairs, the state munition factories at Lyons, Toulouse and Roanne have, since the armistice, been turned with all speed into railway repairing shops.

The French government has long hesitated to place orders in the United States, where alone new rolling stock could be procured, for fear of depressing the French rate of exchange unduly; but the country's needs became so pressing that orders have now been given, it is understood, for purchasing 800 locomotives and 32,000 cars, while 27,000 American cars that were to have been shipped to France for the use of the American Expeditionary Force have also been acquired.

Perhaps the biggest task before the French transportation experts is the restoration of the destroyed railway tracks in the invaded part of France. An army of 75,000 workers will be engaged on this great work for months. It includes the reconstruction of fourteen tunnels and 16,000 bridges, for which 50,000 tons of metal are required.

In addition, hundreds of miles of main and branch lines have been temporarily "borrowed" for military purposes from elsewhere, and must now be relaid.

An appropriation of 120,000,000 francs has been made by the government to enable the railway companies to purchase rolling stock for urgent public needs. The minister of Public Works has declared that, in his view, the restoration of France's Northern and Eastern railway systems should be made a first charge upon the war indemnity to be paid by the enemy.

FOUR KILLED BY THE B. & O.

(By Associated Press)
Akron, O., February 20.—Four persons, two men and two boys, were instantly killed today when the auto in which they were riding was struck by an east bound B. & O. passenger train, eight miles east of here.

SIX PASSENGERS HURT
Cleveland, Ohio, February 20.—Four women and two men were injured when a Lorain avenue car, getting beyond control in the high level bridge subway, crashed into another car that had stopped to discharge passengers. The rear of the first car was smashed in and the occupants of that end of the car were cut and bruised.

BOOZE VENDERS UNDER ARREST

(By Associated Press)
Toledo, February 20.—Federal authorities clamped down on booze transportation from Ohio into Michigan late today by arresting seven men and seizing three auto loads of liquor. The prisoners will be prosecuted under the amendment to the postoffice appropriations bill which prohibits ordering, purchasing or causing of intoxicants to be shipped into a dry state.

BURIED IN BRONZE CASKET.
Ashtabula, February 20.—The body of James Lewis Smith, aged 70, eccentric bachelor and millionaire, encased in a bronze casket which he purchased 15 years ago, was laid at rest in his own private mausoleum at Chestnut Grove Cemetery Wednesday. Mr. Smith built the mausoleum soon after purchasing the casket.

PRESIDENT WILL ARRIVE MONDAY

(By Associated Press)
Boston, February 20.—(Associated Press)—The steamship George Washington, on which President and Mrs. Wilson are returning will reach this harbor about one o'clock Monday afternoon, according to a message from the vessel received today.

The boat will anchor in the harbor and the President and party will be transferred by coast guard cutters.

GENERAL DENIES SACRIFICES OF MEN IS CHARGED

"In Three Hours We Took What French Failed to Take in Four Years," He Explains

(By Associated Press)
Washington, February 20.—Major General Traub, who commanded the 35th division in the battle of the Argonne denied before the House Rules Committee today the charge of Governor Allen of Kansas that the men of the division, Missourians and of Kansas, were sacrificed by failure of artillery support.

"We were up against three crack German divisions," said the General, "but we advanced 12 1/2 kilometers on a two or three kilo front and held it. In the first three hours we had taken what the French had been up against for four years."

CORE AGAINST DAYLIGHT PLAN

(By Associated Press)
Washington, February 20.—In response to letters and petitions from farmers throughout the country urging repeal of the daylight saving law, Chairman Gore of the Senate Agricultural Committee announced today that he would offer a rider to the annual agricultural appropriation bill providing for annulment of the statute.

BOMBARD TOWN IN WESTPHALIA

(By Associated Press)
Copenhagen, February 20.—Spartan forces are bombarding the town of Rotterop in Westphalia, Germany, with artillery, according to a message from Muenster.

Assistance to the defenders of Rotterop is being sent, the message adds.

SEE BOLSHEVIKI PLOT BACK OF PARIS SHOOTING

(By Associated Press)
Paris, February 20.—Was the attempt upon Premier Clemenceau's life of Bolshevik origin is the question being insistently asked here.

Newspapers here today recall that a few days ago a Geneva, Switzerland, paper announced that Bolsheviks in Switzerland were reported to be plotting against the Premier's life and that two of them had crossed the frontier to carry out the plan.

SAFE ROBBER GET \$600.
Cleveland, O., February 20.—Burglars yesterday forced an entrance into the Lorber Liquor Company store in the downtown section, hammered off the combination of the safe and escaped with more than \$600. Ten other burglaries were reported during the night.

Monthly Rate of Return After April Expected to Exceed 300,000

(By Associated Press)

WASHINGTON, February 20.—Definite information reached the war department today that eight German steamships have been allotted to the United States for transporting troops.

Sufficient tonnage now is available, it was stated today, to return every American soldier before the end of the coming summer if such a policy were decided upon.

Embarkations from overseas up to March 1st will total 400,000, leaving approximately 1,600,000 men in France and Germany, according to these official estimates.

March embarkations are expected to reach a minimum of 200,000, and April at least 225,000. The monthly rate thereafter is expected to exceed 300,000.

BILL'S SON IS UNDER ARREST

(By Associated Press)
Copenhagen, February 20.—Prince Joachim, of Prussia, youngest son of former Emperor William, has been arrested, according to a dispatch from Munich. The dispatch states that his arrest was on suspicion of being connected with "certain intrigue."

GOLDEN JUBILEE IS CELEBRATED

(By Associated Press)
Washington, February 20.—Clergy and laity of Roman Catholics gathered here today to pay homage to the venerable head of the church in the United States, Cardinal James Gibbons, at the celebration of his Golden Episcopal Jubilee.

Pope Benedict was represented by Archbishop Cerretti, who came from Rome to bring the pontiff's blessing to the aged prelate.

Dignitaries of the church said the celebration was one of the most notable gatherings of the Roman Catholic church in North America in more than 30 years.

BERGER DENIED A NEW HEARING

(By Associated Press)
Chicago, February 20.—Federal Judge Landis today refused to grant a new trial for Victor L. Berger, congressman-elect from Milwaukee, and four other socialist leaders convicted on charges of violating the espionage act.

OHIO CHILDREN ARE HEALTHIER

Columbus, Ohio, Feb. 20.—(By Associated Press Correspondent)—Ohio children were healthier in 1918 than in any of the preceding four years, so far as contagious diseases were concerned, according to the year's total of disease reports to the State Department of Health.

Of the four principal childhood epidemic diseases, measles, diphtheria and scarlet fever showed reported case totals lower than previous years and only whooping cough showed an increase. It is believed the whooping cough total may reflect more complete reporting rather than actually higher prevalence, as the department put new regulations for whooping cough into effect in 1918.

HIGH SCHOOL BOYS HAVE "Y" CLUB

Wednesday evening the High School boys met at the Y. M. C. A. and organized themselves into a High School Boys' Club. Mr. Barber of the "Y" is the instigator of the movement which promises to be very popular among the young men.

The boys were served with an appetizing meal at a very nominal price. The supper was admirably served under the direction of Mrs. J. W. Willis and several of the High School girls. The plans for a permanent organization were perfected, and the following young men were chosen officers: President, Arthur Rothrock; Vice-President, Willis Willis; Sergeants at arms, Russell Dorn and Thomas Rogers. Richard Haynes was chosen yell leader and Edward DeVos for Secretary-Treasurer.

The freedom of the big pool and gymnasium were then extended to the boys. A feature of the evening was the basketball game between the High School and the Y. M. C. A. teams, in which the High School won over the "Y" team by a score of 40 to 30.

The boys will meet every Wednesday evening and all High School lads are urged to attend.

FITE GROCERY IS UP TO THE MINUTE

Mr. Ed Fite has been remodeling the interior of his large grocery store and departmentizing it so that all goods in each department will be grouped and the customers will know exactly where to apply for each article desired.

Extensive new display shelving, finished in white enamel and adding much to the attractiveness of the store, are being constructed so that in the next day or two the respective departments will be fully completed. The departments to be distinct and set apart to themselves are: candies and cakes, vegetables, groceries, coffees, teas and spices, china, and the aluminum, granite and tinware department.

OHIO'S DRY LAW MAY BE LATE IN ADOPTION

State May Have No Enforcement Machinery as Result of Long Delay and Clashes

Columbus, Ohio, Feb. 20.—(By Associated Press)—It looked yesterday as if drys may be delayed in getting effective laws from the present general assembly to enforce the state prohibition amendment, effective May 27. Drys in the senate have only 21 votes, although 22 are necessary to pass the Miller-Crabbs enforcement bills as emergency measures. Drys had counted on some of the yet senators voting for emergency clauses.

If they ever had such intention, wets said yesterday, they haven't any more, because of alleged unfair tactics of Senator Miller of Muskingum, chairman of the joint temperance committee, toward a group of soldiers and sailors in uniform, who had come to protest against emergency dry legislation.

It put through as emergencies, they pointed out, the whole dry program would be put in force without their having a say on the subject.

Bitterest criticism of the tactics of Senator Miller came alike from drys and wets, Republicans and Democrats.

Miller in the first place had refused to give a hearing Tuesday to 13 representatives of the Soldiers and Sailors' Suffrage League of Ohio, who had come here to protest against the passing of the Miller-Crabbs enforcement bills as emergency measures so as to head off a referendum.

If the enforcement measures fail of a two-third vote in either house, they will not be effective until 90 days after enactment. If during that time a referendum is initiated, they will not be effective until after the November election, and not then unless the bills are upheld by popular vote.

Drys face the danger, wets assert, that the measure will be repealed if submitted to referendum. In that event there would be no legislation to enforce the state prohibition amendment.

The present legislature might enact a new law next January, when it expects to meet again, but might fail even then of enacting an emergency clause, so that it would be subject to referendum again next year.

SAYS XENIA DIED FORTY YEARS AGO

The following excerpt is from a Washington, D. C., dispatch: Wilbur D. Nesbit, poet and raconteur, hit the risibilities of the National Press Club right on the elbow the other night when he told a large audience, which included Vice President Marshall, Representative Barnhart, Kin Hubbard and other celebrities, that Xenia, O., where he was born, is "one of the best laid-out towns in the world."

"It died forty years ago," he added. He said that a short time ago a friend of his boyhood days at Xenia called on him in Chicago, and in the course of conversation about old times told him that his birthplace at Xenia had been marked with a tablet. He told how his bosom heaved with pride when he modestly assured his

friend that he doubted whether he had done anything in his life to merit such generous recognition.

"I recalled," said he, "that the tablets which are attached to the houses where great men are born usually set forth something about the achievements of the man who is commemorated, and I was curious to know more. 'What does it say on the tablet?' I inquired.

"It says 'Main street,' he answered."

GRIM JOKE DRAWS MUCH ATTENTION

Passers-by, Wednesday evening, had their attention attracted by a small black and white dog which, to all appearances, was seated at the steps in front of the Willis restaurant on Court street, smoking a cigarette. The smoke was rolling up from the cigarette held in the dog's mouth and at first glance the averaged person was under the impression that the animal was really smoking the cigarette.

However, as a matter of fact, the animal was dead, having crawled to a point near the steps and died. Later some mischievous boys placed the dog in a sitting posture and stuck the cigarette between its teeth.

SAYS HUNS HAD FREEDOM OF SEAS

Berne, Switzerland, January 19.—(By Mail)—On the question of freedom of the seas, Professor Friedrich W. Foerster, Bavarian Minister to Switzerland, said recently to a correspondent of The Associated Press:

"I must frankly admit the Germans had no reasons to complain of the lack of freedom in using the seas to develop their commerce and industries before the war. In fact, both America and England placed no obstacles in this respect."

Dr. Foerster declared that Prussianism and militarism now are dead in Germany—killed by the war and that Germany will become a great republic on the lines of America but that the process necessarily must be slow owing to international conflicts and the differences between political parties.

San Juan, January 20.—(By Correspondent of the Associated Press)—United States Senator Miles Poindexter, member of the Senate Naval Affairs Committee, has written a letter to the Porto Rican Department of Education promising to endeavor to name a battleship after the island of Porto Rico. This would be in compliance with a petition recently signed by thousands of Porto Rican school children and forwarded to Washington.

VERDUN TODAY MASS OF RUINS

Verdun, France, January 11.—(Correspondence of the Associated Press)—Scores of American tourists have visited Verdun recently, most of them spending part of a day looking over the ruins of the "city that was," and passing on to some, other nearby town for the night. Many of these sight-seers have been individuals and delegations who came over in some connection with President Wilson's trip.

Several thousand French soldiers and a handful of American troops are quartered in the shell-shattered city. No civilians have come back as the tremendous task of rehabilitation has not begun. Every Sunday morning the bells of the cathedral are rung

but no services have yet been held within its bare walls. The bell tower is one of the few parts of the church not shot away by German shells.

ASSASSIN TELLS OF DASTARDLY ACT AGAINST PREMIER

Paris, February 20.—(By Associated Press)—Describing his attack on Premier Clemenceau yesterday Emile Cottin said: "When I reached Clemenceau's house I saw it was guarded, and so decided to make an attempt further on, at the corner of the Rue Franklin and the Boulevard Descazert. There I hid, awaiting the automobile. When I saw the car I advanced and fired sideways, the first bullet piercing two windows; then as the car continued to advance I ran after it and continued firing until my revolver was exhausted. Most of the bullets hit the car. It seems to me that it was the last, or last but one, which hit the premier."

"About seven months ago I thought of killing Clemenceau as the greatest enemy of humanity. I determined to carry out this project a few days ago and for this purpose went to the Rue Franklin to see how I could attack the Premier with the least possible risk. I had taken care to find out the habits and identify his house, which seemed very simple for a person of his importance and very ugly. Cottin boasts or having read many works on social science and claims sole responsibility for his act."

"I wished the man who was preparing for another war to disappear," he said. "I am an integral anarchist, a friend of men, not excepting the Germans, and a friend of humanity and fraternity."

A police official told the Associated Press that Cottin had informed him that he had gotten his first good look at M. Clemenceau at a reception in honor of the King of Italy.

"From that moment the old man's doom was sealed," said Cottin to the police.

"Why did I choose this day? Well, there is always a red letter day in a man's life. This was my red letter day."

Cottin was under escort of three plain-clothes men when he arrived at police headquarters.

DROUTH THE CAUSE OF GREAT DISTRESS

A letter recently received by Mr. and Mrs. J. H. Allen from their daughter, Mrs. Flora Allen Turner, of Kansas City, Mo., contains some very interesting information concerning oil fields of Texas and New Mexico and of conditions now prevalent in that section of the south. Mrs. Turner recently visited her husband, Mr. Wm. Turner, for some time located here, who has leased a large tract in Pecos Valley, Texas, and started to drill for

oil. There is the greatest activity in this part of the country, following the statement of a noted geologist who prophesies that "unless all geological signs fail" the Pecos Valley will prove to be an immense oil field.

In New Mexico, near which Mrs. Turner writes that they have secured 400 acres, there is an artesian well which gave out and from which flows 50 barrels of oil in ten minutes, although the flow is not continuous.

The giving out of these artesian wells, while many are producing oil, is death to irrigation. The large orchards and the celery fields of the Pecos Valley, the largest in the world, are drying and the writer said she saw cattle in both the Pan Handle country and the Pecos Valley dying by the thousands. Cattle men are out of feed and are trying to keep cattle alive on the brush of the mountains. Along the Rio Grande there has been no rain in three years.

Mrs. Turner expects to move soon from Kansas City to Fort Worth, Tex., where Mr. Turner will make headquarters. Enroute from Texas she was caught in a terrible blizzard, in which the train was snowed under for hours.

AUTO HITS FENCE IS BADLY SMASHED

A Ford touring car, running at good speed, failed to make the turn on the Chillicothe pike just below the Paint Creek bridge south of this city, about five o'clock Wednesday evening, with the result that when the wheels struck the soft earth outside of the paved road the machine went through the guard fence, smashing two posts and completely wrecking the machine.

One man was thrown into the field and was in a dazed condition for some time. The other two occupants of the machine escaped with a severe shaking up. The turn has been the scene of a number of bad accidents in the past two years.

BEAUTIFUL SERVICE PRECEDES BURIAL

Simple, beautiful and most appropriate were the services with which all that was mortal of Mr. Richard H. Westerfield, brought back from New York City, to the home of his boyhood Tuesday afternoon, were laid to rest Wednesday afternoon. They were held at the home of the only sister, Mrs. R. C. Peddicord, also the home of the mother, Mrs. Aurelia Westerfield, and with the family were assembled a large number of friends, including the personal friends of those earlier days.

Rev. Frederick E. Ross, former pastor and a close friend of the family, had come down from Columbus to take charge of the services after the opening Scripture reading by Rev. Arthur P. Cherrington.

Rev. Ross supplemented a brief memoir with a beautiful little talk on the precious hope of immortality, referring to this life as only the vestibule to the eternal realm with its infinite vastness, and developing lessons of comfort and hope from the wonderful imagery of this Psalm, picturing death as but a fleeting shadow, yielding to the light thrown by Jesus Christ. The minister spoke very tenderly of the young man called in the very prime of life by an eternal power too wise to be unkind.

Mrs. West Shoop sang exquisitely "Beautiful Isle of Somewhere" and, bringing the little service to a close, "Good Night."

A profusion of lovely flowers covered and surrounded the handsome mahogany casket in which the quiet sleeper rested. The burial was made in the Washington cemetery. The pallbearers, Messrs. H. C. Anthony, Jess. W. Smith, West Shoop, J. M. Baker, R. C. Dunn, and Orme Brown, friends of the younger days in this city.

Those who came from a distance for the services were Mrs. Westerfield the two sons, Asher and Richard from Dayton, Mr. and Mrs. Sidney Knight, Miss Wood, Miss Butterworth, Columbus.

LIQUOR IS GOING UP IN CHARLESTON

Charleston, W. Va., February 20.—Since the recent decision of the Supreme Court of the United States forbidding the transportation of intoxicating liquor into West Virginia, the price of "bootleg whiskey" has been from \$5 to \$9 a pint in Charleston, says Chief Sparks added assertion that the flow of spirits into the state has not been checked.

OLD GLORY FLIES ON TURKISH SOIL

Adrianople, December 30, Via London, January 15.—(Associated Press Correspondence)—For the first time since the United States broke relations with the Ottoman government, the American flag flies on Turkish soil. Over the American Red Cross relief station in this little Moslem city the Stars and Stripes may be seen floating alongside the Red Cross flag. The bright colors have created no little curiosity among the Turks, many of whom have never seen the American flag before.

The Red Cross Dept. was estab-

lished here to supply food and clothing to the great numbers of Greek and Serbian refugees who are returning from points in Bulgaria and Turkey.

The relief station is in charge of Israel Marcus of Denver, Colorado, a member of the American Red Cross mission to Greece.

MORAL CONDITION AUSTRIAN PRESS

Vienna, January 30.—(By Associated Press Correspondent)—A glimpse into the moral condition of the Austrian press during the war is contained in a revelation in the Arbeiter Zeitung, the Socialist paper, which prints the secret contracts between the former Austria Premier, Dr. von Seydler, the pan-German deputy, Hammer, regarding the foundation of an organization to be known as the "Press Correspondence."

This institution was financed by Dr. von Seydler with an annual outlay equivalent to \$150,000 and of \$7,200 to Hammer as salary. Hammer was also made a Privy Councillor and put in the House of Lords. His duty was to furnish free telephone and telegraph articles, matrices and newspaper propaganda, to the Austrian press and it was in general gladly accepted.

TRAIN CARRIES COMFORT BAGS

Vladivostok, January 14.—(By Mail)—A Red Cross train carrying more than 10,000 comfort bags for American soldiers along the Trans-Siberian and Usuri railways has been sent from Vladivostok. Each soldier will receive two bags, one packed by the Red Cross in Vladivostok and one which arrived recently from the United States by transport. The combined comforts include candy, tooth paste, tooth brush, cigarette, chewing gum, comb, pencil, shaving stick and cigarette lighter, besides a "housewife" with a variety of utilities for mending. The train was in charge of director S. T. Short of the Department of Military Relief.

R. C. Hunt

On Tuesday last Mr. R. C. Hunt, after making a valiant struggle for life, was vanquished in the unequal struggle with dreaded pneumonia.

Mr. Hunt has lived in Washington and Fayette county for a great many years—so long in fact that we have been proud to call him one of our own citizens and share with him the honors and successes which his active life deservedly brought to him.

Mr. Hunt became, almost immediately upon moving here, a citizen of Washington in all that that world implied. He loved Fayette county as he loved no other place on earth—this was his home and his ideal. Whether in the unexplored wilds of the Andes Mountains, in the far interior of the Chinese Empire, in the Cumberland Mountains or below the surface of New York City where great construction enterprises demanded his talent and his time, he always longed for home—for Fayette county. His ambition was to succeed and retire to private life with honor and a competency to spend his declining years here in Fayette county among the people he loved.

Mr. Hunt was one of the big men who do great deeds. He talked very little of his great work and the tremendous enterprises he had pushed to completion, but that made him all the more enjoyable. He delighted in doing big things and he did do big things quietly but thoroughly.

This community was proud of Mr. Hunt as he was proud of this community.

Hindenburg's Objection

There have been some very weird arguments and some very peculiar objections urged to proposed action, since the great war commenced. It is strange what ideas times like these through which we have passed since the late summer of 1914 put into the heads of people.

It has remained for Von Hindenburg, the supposedly great German Field Marshal, to come forward with the most foolish of all objections. Complaining about the severity of the armistice terms imposed by the allies, requiring the German army to demobilize its armed force to not more than two hundred and fifty thousand men, Von Hindenburg's objection is that it will throw thousands of army officers out of work.

And yet, when that statement is considered more carefully, it is not, from Von Hindenburg's standpoint so ridiculous as it appears from ours.

To the German of the Hindenburg type the army is essential. The old barbarian can't understand that his big army is no longer essential and that his thousands of officers might go to work producing food and necessities of which, Germany claims, there is so serious a shortage.

Old Hindenburg can't get the change at all. To him the only future is for the army to rise again and conduct another raid.

To us it is a foolish statement. To Hindenburg it is the expression of a tragedy.

The mind of Germany today is uncomprehending. Perhaps in a generation or two we may have some Germans who can see something besides "red," but they are not yet.

Opening The Dardanelles

The gates of the Dardanelles have swung open to all the world. They have been fastened open for all time by the decree of the allied nations. The Bosphorus and the Sea of Marmora are free waters now and no longer can the murderous Turk with his frowning fortresses and big guns keep the millions who must be fed and who must communicate with the outside world, through the Black Sea, in the miseries of starvation and shut off from all the world.

For the first time in centuries the Black Sea is free to all the world and that means food and life and liberty to scores of millions of human beings who have been kept in darkness by the Turks and subjected to every form of robbery and barbarity which their devilishness could devise.

Only a few months ago the free people of the earth assailed the Dardanelles by land and sea. They failed. Scores of thousands of brave men perished—vainly beating against those gates which the Turks and Huns had placed across the pathway of millions while demanding "freedom of the seas."

But there was another way to open those gates and the Anglo Saxon found that way—pulled back the great bolts and opened the way.

It is really one of the great accomplishments of the time—one which is in a measure lost sight of in the immensity and number of other happenings.

POEM FOR TODAY

IF I HAD MONEY

If I had money, I believe
I'd soothe a lot of hearts that grieve;
I think I'd chase a lot of care
That burdens people everywhere.
I fancy in my dreaming I
Would be a truly generous guy;
Would give to everyone in need.
Be first to do the kindly deed.
And make this world a happier place
In which to board the human race.
But should a fortune fall to me
Perhaps I, too, should grow to be
Just like the other millionaires
And wear fine clothes and put on airs
And never see the things somehow
That are so plain to me right now,
And be, one throned in fortune's niche,
The idlest of the idle rich.

TAKE THE ROAD TO THE RIGHT

BULGARIA IS IN MIDST OF CRISIS OF DIRE NATURE

Future of Little Trouble-maker of Balkans is on Par With That of Hunland

Sofia, January 9.—(Correspondence of the Associated Press)—Bulgaria is in the throes of a political crisis which will require the greatest wisdom for its solution. She must liquidate the military and political disaster, and the bad effects of the personal regime of King Ferdinand which extended through a period of some twenty-five years. She must restore her standing with her alienated foreign friends, and by wise concessions and reforms forestall the spread of extreme doctrines among a large and somewhat susceptible population. Hearty co-operation of all political parties is evidence of their earnestness to meet the situation wisely.

The country now has a coalition government, the cabinet being composed of men from six different parties. This is the third cabinet change since last June, and each change has been an increasing number of factions represented in the official family. To an American the popular character of the Bulgarian government is something of a revelation, no less than a dozen different parties being formally represented in Parliament.

Bulgaria has taken precautions against internal troubles through representative and parliamentary discussion rather than in dictatorships, street outbreaks or other forms of social upheaval. The country breathes freer in the absence of Ferdinand, even though it is occupied by Entente troops.

The old Chamber has been retained in office to avoid unnecessary risks and the agitation always attendant upon national elections. Premier Radoslawoff, who was looked upon as Germany's dupe, had at no time more than a bare majority, and that majority consisted of Turks who, in Bulgaria, have equal rights with the Bulgarians.

Since Ferdinand's exit, the good behavior of the people has been in remarkable contrast to the situation prevailing in Russia. This is explained by the assertion that Bulgaria is a virtual democracy and has laid the basis for popular contentment. There is equitable distribution of the land, government ownership of public utilities, legislative control of the executive, uncorrupted courts, and social legislation. Universal suffrage has been enjoyed since the creation of the state, and the people have proportionate representation. There is also the Australian ballot system, and other guarantees of popular rights.

VICTIM OF BURNS LAID TO REST

Tokio, January 25.—(By Associated Press Correspondent)—A funeral service was held December 14 on board the United States cruiser Brooklyn in Yokohama harbor in memory of the ten men who succumbed to burns suffered in an explosion, while coaling the ship, on December 9. The dead were all of firemen. The service was led by Bishop Harris of the Methodist Mission and the Rev. E. M. Strong, chaplain of the English church in Yokohama. Present, besides Admiral Rodgers, Commander in Chief of the United States Asiatic squadron, were the American Ambassador Poland S. Morris and Mrs. Morris, Consul-General C. H. Seidmore, the commander of the French cruiser Kersaint, and leading citizens of the American community in Yokohama.

No further deaths have occurred among the thirty-seven men who were burned in the explosion, though at first it seemed that twenty must die of burns. Dr. Pontleroy of the American Naval Hospital in Yokohama and the several young women of the American community immediately responded to his call for volunteer nurses. The work of these girls aided the injured men to endure their days of suffering.

General Heriberto Jara, who long ago was appointed Mexican minister to Cuba, is said to be ready to sail from Vera Cruz for Havana but no official confirmation of this report has been given by the Mexican government.

News of Interest to Women

The recent success of Laurette Taylor in "Happiness," bringing forth from critics the highest praise of the season when in Columbus last week makes of added interest the following story recently printed:

A movie man was calling on Laurette Taylor, trying to induce her to sign a contract to appear as the heroine of "Peg o' My Heart" for his company.

"I am authorized to offer you \$750,000," said he, casual-like, which is the way movie men have when they talk figures.

Miss Taylor laughed and the movie man laughed.

But the actress shook her head. "No," she said "I am not interested."

"What figure would interest you?"

"O a million cash," she said nonchalantly.

A few days later Miss Taylor's phone rang; the call was from the same movie man—who if you are anxious to know, was Roi Cooper Megrue.

"Miss Taylor," said the voice over the phone, "we are prepared to meet that proposition of yours. We will give you \$1,000,000 for the moving picture rights to your plays if you will play them. When shall I bring up the contracts?"

"But—I—oh—I—I was only fooling," stammered Miss Taylor. "Really I'm not interested in pictures just now. I just said 'a million,' thinking that would discourage you."

Washington women who so greatly admire Miss Zara Dupont, First Vice President of the Ohio State Suffrage Association, and had the privilege of meeting Miss Dupont at the home of Mrs. D. S. Craig, a school friend, several years ago, will be interested to learn that Mrs. Dupont is now in Columbus making arrangements for the State Suffrage meeting to be held there February 26th and 27th.

Miss Dupont will handle plans for the state committee. Miss Dupont comes from Georgetown Pa., where for the last year she has been caring for her brother's children, who were left motherless.

A number of local women are planning to attend this State Convention next week.

Washington's Birthday will be the memorable celebration of the year with the Daughters of the Revolution on Saturday at half past two o'clock in the Federated Club rooms.

The members of the Executive Board will act as hostesses and a splendid program will be presented. The affair is confined to members of the chapter.

Royal Chapter No. 29 O. E. S. will devote Friday afternoon, between the hours of one and five to quilt making for the unfortunate families of Devastated France.

Members are asked to come out and assist in this helpful work in the parlors of the Masonic Temple. It will not mean all work, for arrangements are underway for a social hour after the quilting is completed.

A new suggestion for Washington's Birthday followed the question "What Shall We Do With the Service Flag?" which sprung up after the beginning of rapid demobilization.

War Camp Community service is sponsor for the suggestion that a service bar of silver be placed across the star when the man comes home. The church at regular intervals, upon the first Sunday evening of each month, the lodge at its regular monthly meeting, and factory or office according to its own best judgment may make ceremony of placing these bands on the stars according to the number of men who have returned since the last similar occasion. To make this plan complete, it will lead up to a great civic celebration on either Decoration Day or the Fourth of July, when the former occasion will honor the gold stars on the flag, and the latter the men demobilized.

Washington's Birthday—an ideal point of time for inaugurating a custom of this sort—has been selected as the day when the first ceremonies of demobilizing the service flag will be held. On that day all organizations with service flags will be asked to hold some appropriate service in connection with placing the silver bar across the stars of men discharged from the army.

This idea has been specially promoted in Chillicothe to be worked out by the War Camp Community Service in connection with a committee of which Rev. J. V. Stone was a member.

Local acquaintances of Mr. Carl E. Summers, brother of Mr. W. E. Summers and himself a member of the Summers and Sons Piano Co. of this city will read with interest that following clipping from Sunday's Columbus Dispatch.

A brand new song has just been called to your attention, entitled "I'm Glad to Be Back in the U. S. A." which seems to have all the require-

ments for a hit, and for Columbus it needs no further recommendation than to say that it is the Captain Eddie Rickenbacker song. Carl E. Summers is the writer of the music of this new song, which is dedicated to "Captain Rickenbacker—Hank Gowdy and to everyone of the thousands of boys who went overseas." The song is published by the Buckeye Music Publishing Co. of which Charles Roy Cox is president and general manager, and is now on sale.

The February meeting of the Woman's Missionary Society of the First Presbyterian Church marked the end of the Fiscal year and intensely interesting program and a remarkable attendance of seventy women.

Mrs. John Paul had hospitably thrown open her home on Court street and was assisted in entertaining by Mesdames D. H. Barchet, Albert McCoy, Mary Millikan, J. W. Elliott, W. D. Chandler, D. H. C. Bowen, D. H. Schneider, Margaret Bennett, H. E. Edwards, W. H. Brown, W. W. Millikan, A. M. Bush, Miss Mary Pyley.

Mrs. Austin F. Hopkins, President lent inspiration to the meeting in her opening devotional service, after which Mrs. Coral Meier conducted the program as leader.

The month's subjects were "The American Indian" and "Chosen," formerly known as "Korea," and the proof of month's motto "Of the increase of His Government there shall be no end" was evident in reports of progress as given in the papers.

Mrs. Jesse Persinger presented "Characteristics and Customs of the American Indian" in a splendid paper, bringing out what Christian schools and their teachings had done in removing the Indian's superstition and fear.

"Chosen for Christ" was the subject of a fine paper in which Mrs. Frank M. Fullerton developed the progress of christianity and its fruits in that far off country.

Plans for the New Era Movement in the Society were briefly outlined by Mrs. Carey Persinger.

The Society asked that all desiring to contribute to Devastated France hand their money to Mrs. J. F. Dennis, appointed chairman. Interesting bits of news from Chosen were given by members.

The women of the society greatly enjoyed having with them once more Mrs. S. J. Ervin and daughter, Mrs. Jennie Bailey, of Ann Arbor, Michigan, and they expressed reciprocal pleasure and the hope soon to be back in Washington.

In speaking of church life in Ann Arbor, Mrs. Bailey said, there were 200 women in the missionary society of the church they attended and the meetings were held in the church with a social meeting at one of the homes quarterly.

A tempting luncheon was served and the social hour one of spontaneous pleasure.

A jolly crowd of thirty-five members of the Daughters of America motored to Jeffersonville Wednesday night to attend the regular session of Buckeye Council D. of A. A class of six candidates were received into the order. Initiatory work was put on by the Degree team of Buckeye Council.

The unusually pleasurable evening closed with a social hour in which a two course luncheon was served.

Mrs. Robert Bryson is quite ill at her home on East Temple street.

Mrs. Frank Evans received a letter from her son Corporal Lee Elden Evans of the 314 Mobile Laundry Unit who has been stationed at Tours, France, announcing his transfer to the First Army of Occupation and that he is now stationed at Montauban, Germany.

Robert Craig, who has been taking a business course at Bliss College came down from Columbus, Wednesday evening to assist in Haver's Drug Store during Mr. Haver's illness.

Messrs. M. E. Hitchcock and Ed Fite are spending the day in Columbus, on business.

Mr. Rufus Sever, of Detroit, Mich. a nephew of Mrs. R. C. Hunt is here for the funeral of Mr. Hunt.

SOUR STOMACH A BAD SYMPTOM

Your sour stomach means danger. Your food is all being poisoned, your blood is absorbing toxic matter, and sooner or later headaches, backaches, loss of sleep, nervousness, cold hands or feet, and other more serious ills will follow.

For thirty-five years Dr. Parker has been studying and treating just such conditions, to prevent the long trains of ills that follow indigestion. He has perfected Dr. Parker's Treatment for Indigestion and Constipation for that purpose, and because he knows its value will guarantee it on a money-back basis.

Any local druggist will tell you that this treatment affords quick relief, gives strength and tone to the stomach and bowels, helps them function properly and thus restores your health. You risk nothing when you use it, and thousands have been helped wonderfully. Your \$1 back if it does not help you.

The funeral services of Mr. R. C. Hunt will be held Friday morning at ten o'clock at the home on the corner of North Main and Temple streets, Rev. David W. Barre officiating.

Burial will be made in the Washington cemetery.

ORCHARD "GOOTIES" MAY DAMAGE FRUIT

Orchardists all over Ohio and particularly those in the central part of the state report a great abundance of plant house eggs on fruit trees. They are very small, black, globular objects located in the crevices, in leaf scars and rough places on fruit sprouts and twigs of apple and pear trees.

If left to mature some damage will doubtless result to the young fruit buds, according to T. H. Parks, extension entomologist of the College of Agriculture. A lime sulphur spray (dormant strength) to which has been added black leaf at the rate of one part to 700 of water, applied when buds are swelling will be effective in destroying this pest as well as scale. Detailed information regarding these sprays may be had on application to Prof. T. H. Parks, Agricultural College Extension Service, Columbus.

"SOW THE WIND REAP WHIRLWIND"

Wednesday night Dr. Mahood, at Grace M. E. Church, preached on the theme "Reaping the Whirlwind," taking his text from Hosea 8:7—They sow the wind, and reap the whirlwind.

Dr. Frederick E. Ross, former pastor of the church, and with whom Dr. Mahood had been associated in former evangelistic work, made a short address during the course of the evening.

Tonight's theme will be "Heaven" and on Friday night Dr. Mahood will speak on "Annunciations."

Wednesday night Dr. Mahood said in part: "One proof of the Bible's inspiration is that the old prophets have a message for every age of human history. God's word is always true, and what is said of Jehovah in this prophecy may be said of His word. 'This going forth is as sure as the morning.' Men sow the wind when they use profane or vile language. God puts the sin of profanity in the same category with murder and adultery and theft. There is no way by which a man more surely advertises his low grade of moral standing and his lack of self-control than by the habit of profanity. 'Out of the abundance of the heart the mouth speaketh.'"

"A man sows the wind when he permits an unrestrained imagination. A man may be a murderer or a thief and not commit the outward deed. 'As a man thinketh in his heart, so is he.' We enact pure food laws but why not make pure thought laws? Where one person eats poison a hundred think poison."

"There are two supreme lessons to be learned from Hosea's story. 1—That sin will debauch and ruin the parent and the best, and 2—That God is willing to do His best for the worst."

WORK CEASES

London, February 1.—(By Associated Press Correspondence)—Queen Mary's Needlework Guild, which has done such good work during the war, is to be closed with the exception of the orthopaedic branches. In making this announcement, Lady Lawley says "Her Majesty desires me to take this opportunity of making known her high appreciation of the wonderful spirit in which her branches throughout the Empire have responded to her appeal on behalf of the sick and the wounded. The record of the work done is one of which the Queen and the guild may well be proud."

EXTRA LONG WEAR FROM SHOES

T. D. Collins of Oskala, Hawaii, makes a remarkable statement which demonstrates the money-saving durability of Neolin Soles.

He writes, "After wearing a pair of Neolin-soled shoes off and on for thirty-three months, I wore them on a trip to the volcano of Kilauaea and walked around the crater over hot lava six times and still the soles showed only slight signs of wear."

This experience is not accidental. It results from the scientific process by which Neolin Soles are made to be exactly what soles should be—comfortable, waterproof and exceedingly economical because of the long wear they give.

Get them on new shoes for all members of the family and have them put on worn shoes. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear any other heels.

WAGNER RELEASED

Heinie Wagner, who has acted as coach of Boston Red Sox since he finished his career as a big league regular, has been unconditionally released by Manager Barrow, according to a report from Boston. The reason given for the release of the veteran is the new player limit in the American League—twenty-one players in uniform allowed to each team. Manager Barrow will probably do the work which heretofore has been handled by Wagner.

TRAVELING IN BALKANS TOUGH ON IMPATIENT

A Former Journey of Fifteen Hours Now Requires a Week in Heatless Cars

Adrianople, December 15, via London, January 15.—(Associated Press Correspondence) — Railway travel in this section of Europe nowadays, is calculated either to develop or shatter one's patience. A trip from Saloniki to Constantinople, which in peace times required less than fifteen hours, now takes a week or more. The correspondent of The Associated Press spent five days journeying from Serres in Greece to Adrianople—a distance which a fast American train would cover in less than ten hours. The correspondent travelled in a stoveless box car with Bulgarian soldiers who outdid themselves to make him comfortable.

The British army has taken over the operation of main railways in Bulgaria and Turkey, and while the wretched condition of the German locomotives which have fallen into their hands, makes travel extremely slow, the service is unusually efficient. The traveler is always certain of reaching his destination, however long it may take.

It is this administrative efficiency on the part of the English that has made it possible for American Red Cross to transport hundreds of tons of supplies to points from Saloniki to Adrianople in Turkey to meet the urgent needs of Greek and Serbian refugees who are pouring back from Bulgaria and Turkey in ever increasing numbers.

Not only have the British authorities expedited these relief supplies in every possible way but they have at several points turned over to the American Red Cross, large quantities of flour and other valuable foodstuffs. It is no exaggeration to say, if it were not for this and other help on the part of the British, the condition of returning refugees would be hopeless.

GERMAN KIDS EAT CHOCOLATE

(By Associated Press)
Trier, Prussia Feb. 10.—A car load of chocolate billed to the American Army of Occupation was wrecked near Trier recently and several German children and families living nearby ate such quantities of the sweets that doctors had to be called in to treat them. Many of the children had never tasted chocolate before, this form of candy being among the luxuries which Germany was virtually unable to supply during the war and, before the American salvage crews got to work the youngsters consumed their fill and then started homeward with all they could carry.

RECOUNTS GREAT ACHIEVEMENT OF THE FIRST ARMY

General Pershing Praises Work of Army in Last Weeks of War, Declaring Greatest Work in History of American Arms

(By Associated Press)
St. Louis, Mo., February 20.—General Pershing told men of the First Army who fought and won the Meuse-Argonne battles that their achievements were scarcely equalled in American history, and must remain a source of proud satisfaction to troops who participated in the war's last campaign. A copy of a general order issued by General Pershing has just been received here.

The order outlines the last campaign from September 26 to the signing of the armistice, and was printed in the Stars and Stripes, official newspaper of the American Expeditionary Forces. It follows:

"It is with a sense of gratitude for its splendid accomplishment, which will live through all history, that I record in General Orders a tribute to the victory of the First Army in the Meuse-Argonne battle.

"Tested and strengthened by the reduction of the St. Mihiel salient, for more than six weeks battered against the pivot of the enemy line on the Western front. It was a position of imposing natural strength, stretching on both sides of the Meuse river from the bitterly contested hills of Verdun to the almost impenetrable forests of the Argonne; a position, moreover, fortified by four years of labor designed to render it impregnable; a position held with the fullest resources of the enemy. The position you broke utterly, and hastened the collapse of the enemy's power.

"Soldiers of all the divisions engaged under the First, Third and Fifth Corps—the 1st, 2nd, 3rd, 4th, 5th, 7th, 26th, 28th, 29th, 32nd, 33rd, 35th, 37th, 42nd, 77th, 78th, 79th, 80th, 82nd, 89th, 90th and 91st—you will be long remembered for the stubborn persistence of your progress, your storming of obstinately defended machine gun nests, your penetration, yard by yard, of woods and ravines, your heroic resistance in the face of counter attacks supported by powerful artillery fire. For more than a month from the initial attack of September 26 you fought your way slowly through the Argonne, through the woods, and over hills west of the Meuse; you slowly enlarged your hold on the Cotes de Meuse to the east; and then on the first of November, your attack forced the enemy into flight. Pressing his retreat, you cleared the entire left bank of the Meuse south of Sedan and then stormed the heights on the right bank and drove him into the plain beyond.

"Your achievement, which is scarcely to be equalled in American history must remain a source of proud satisfaction to the troops who participated in the last campaign of the war. The American people will remember it as the realization of the hitherto potential strength of the American contribution toward the cause to which they had sworn allegiance. There can be no greater reward for a soldier or for a soldier's memory.

"This order will be read to all organizations at the first assembly formation after its receipt.

"JOHN J. PERSHING, General, Commander-in-Chief, American Expeditionary Force."

SOLDIER STAKE PRIDE IN FEAT

(By Associated Press)
Aldernach, Germany, January 23.—If there is one thing more than another that American sailors like to write back to the United States it is "We're marching toward the Rhine." It is a rare man who can resist the letter-writing urge when he is able to start his epistles "Somewhere in Germany."

This was demonstrated in the recent march of the Thirty-Second Division into Germany. On the hike, the men used more than 320,000 sheets of Young Men's Christian Association letter paper and envelopes, about three times as much as the "Y" ordinarily uses in the same number of days.

PROPOSED UNITED STATES POLICE AREAS

The shaded areas of Syria, Armenia and Constantinople, shown on the map, are the proposed areas over which the United States will be asked to accept mandates. It is reported that the question of accepting or rejecting the mandates over these territories will be left to the United States Senate. If the United States should not accept the mandates as her share of the conquered regions, it is reported that the powers will give up the proposed mandatory scheme and revert to a division of the territories.

HUN SALARIES DRAW COMMENT

Munich, January 16.—(Correspondence of the Associated Press).—The conservative Center or Catholic organ of Bavaria, the Courier, which since the revolution has made a feature of the cost of the new government, takes delight in printing, with appropriate comment, the salaries of the employees of the Central government in Berlin, as somewhat reluctantly announced by People's Deputy Landsburg before the National Council of Workmen and Soldiers' Councils.

The forty-five members of the council to which Landsburg belongs receive \$12.50 a day, annually \$4,565, or, as the Courier points out, the equivalent of the salaries of over-presidents of courts; forty-eight confidential assistants and forty-two couriers are paid \$10 a day, annually therefore \$3,650, or as much as Ger-

BULGARS KILL SERB PRIESTS

Pirot, Serbia, January 10.—(Correspondence of The Associated Press) —Confirmatory evidence of the slaughter of Serbian priests by Bulgarians during the war, was given to a representative of The Associated Press today by the Rev. Milija Yontschitch, pastor of one of the churches here who personally witnessed the massacre of twenty of his colleagues and one Serbian officer. All, he says, were shot and many were burned alive.

Father Yontschitch escaped a similar fate only by feigning death after he had been shot. He exhibited to The Associated Press correspondent two bullet wounds in his left shoulder. Another priest, the Rev. Thomas Popovitch, of Pirot, escaped by fleeing across the mountain road.

The murder of the priests took place November 25, 1915, in the village of Kremencia about thirty-five miles east of Nish, according to the story of Father Yontschitch, which follows:

Father Yontschitch in company with twenty-two other Serbian priests was taken by Bulgarians from Pirot to Nish where they were thrown into a cell and forced to live for five days without food or water. After his release he and his companions, who included Lieutenant Tasa Gorgevitch of the Serbian army, were marched by their captors for thirteen hours to Bela Palanka, thirty miles east of Nish, an armed guard walking behind each.

About two hours walk from Bela Palanka, the priests came to a halt and were ordered to turn off the road into a very small valley to the right. It was after midnight and half a moon gave the only illumination to the lonely mountain roads and valleys. The priests had not gone far when the guards shot them in their backs.

12000 TOBACCO WORKERS OUT IN PORTO RICO

San Juan, P. R., January 30.—(By Correspondence of the Associated Press) (By Mail) With the Porto Rican American Tobacco Company de-

claring there is a strike of labor in their factories, and the workers contending that the company has declared a lockout against them, there are 12,000 tobacco workers at present unemployed in the island.

The position is an anomalous one, for both the company and the workers assert they did not begin the conflict and about the only definite fact available is that the factories are not working.

Before the holidays the workers were offered a bonus of 15 per cent to be paid from the profits of the company in lieu of a flat wage increase. This was rejected on the ground that a bonus at the end of the year would not meet the existing cost of living. The factories have been closed since December 24, when the working agreement which had been in force for a year expired.

Rivera Martinez, president of the workers' committee, says he looks for the largest strike in the history of Porto Rico, and that he does not expect to see the factories opened for a year.

Of the idle workers approximately 6,000 are cigarmakers and there are an equal number of strippers and other employees, many of them women.

FESS BITTER IN OPPOSITION OF THE LEAGUE

Member From This District Declares Plan "Monstrous" and Filled With "Vicious Possibilities"

(By Associated Press)
Washington, February 20.—Criticism of the constitution of the league of nations was opened in the house late Wednesday with an address by Representative Fess of Ohio, Republican, who declared the league plan was "monstrous" and filled with "vicious possibilities."

"Just as soon as the American people shall grasp the vicious possibilities herein included," said Mr. Fess, "there will be such a revolution of sentiment aroused that any man who will subscribe to the perpetual surrender of this republic's future to a vote of foreign nations will be, as he should be, repudiated as an enemy to the spirit and genius of American institution."

Representative Fess said one of the principal objections to the league plan was that it made possible five votes for the United States by permitting self-governing dominions or colonies to become independent members.

"The sovereignty of the United States," continued the Ohio member, "will be transferred completely to a group of European powers by a mere vote of the league that matters under consideration by it might lead to war."

"The executive council, which is to be the real agency of the league to enforce its findings, is to be limited to nine members, one each from the United States, France, Great Britain, Italy and Japan, and one each from four other states to be selected by the body of delegates. The decisions of each body, delegates or executive council, are by a majority vote, so that in all cases the finding of the council will be determined by five members. In other words, any five of the nine voting together can bind the United States without its consent to any matter falling within the province of the league."

"No matter how much the people of the United States may wish to avoid mixing in European or Asiatic politics, any five of the nine members can fix the responsibility of this country."

"To be specific, article 19 authorizes the league to vest mandatory authority and select the nation to exercise it over such countries recently under other sovereignty and which are not yet regarded sufficiently stable to maintain stable self-government. This article means that, by a vote of the league, the United States would have to undertake the maintenance of law and order in Armenia, for example, or a country in Africa."

"Moreover, any group of five of the nine can fix the character of our defensive program, as the question of the size of armament, large or small of any member of the league is apt to this vote by article eight."

Mr. Fess said the most dangerous feature of the proposed constitution to his mind was the provision which would make the United States constituent part of a league which would exercise supreme authority through a body of delegates, without name or number, each of whom would

have equal authority in all matters which would come before it affecting this country.

"The matters of consideration are not defined, and therefore not limited," he said. "If the Monroe doctrine is included in the judgment of a majority of the members, what recourse have we after we have entered the league, which speaks by a majority vote? If immigration is included, according to a majority of the league, what is our defense? If a tariff is included, according to the judgment of the majority, what have we left but to surrender or commit a breach of covenant?"

"This nation should never, under any circumstances, surrender its sovereignty on any question which pertains to its future welfare, to a vote of a league made up of an indeterminate number of countries whose major interests cannot be expected to be identical with our own."

Mr. Fess declared that, once the United States had agreed to the proposed league, it would not have the power to compel changes in the constitution for its benefit.

LOCAL TEAM READY FOR TOURNAMENT

The local High School basketball squad will leave for Greenfield Friday afternoon to take part in the South Central Ohio tournament. The trip will be made by autos and many local rooters will accompany the team.

Washington will play the first game Friday evening against the team that falls to them by lot.

Twelve teams are entered in the tournament this year. Eight of these teams are known as class one teams and are allowed to contend for the cup, while the remaining four may participate in the consolation games, the winner of which will get a banner as their trophy.

The finals will be played Saturday evening. These last games decide the winner and Washington is expected to participate in the last games.

SCHUMANN QUINTET AT JEFFERSONVILLE

The well known and highly gifted Schumann Quintet, which has won the plaudits of Washington audiences, will appear at Jeffersonville Monday night, February 24th as a postponed number of the Jeffersonville Lecture Course.

This organization was to have given the opening number of the course, but the influenza epidemic prevented this.

William Rainey Bennett, who made such a hit in this city a couple of years ago, will appear as the final number of the course on Monday, March 17th.

Let's Give Credit Where Credit is Due

Every grocer who sells Green & Green products has contributed his bit towards Winning the War, and we want to publicly express our appreciation of his co-operation.

When the United States Government asked us to make Hard Bread to help feed Your boys and Ours, we felt that the least we could do was to put our entire resources at the disposal of our Country. We felt that You, our Customers, would want us to do it, and we knew that our friends, the grocers, who handled Green & Green products would share the sacrifice that this move made necessary.

For every grocer who stopped handling Green & Green products while we were making Hard Bread, knew that it meant a sacrifice for him. He knew that his customers would ask for Edgemont Crackers and Edgemont Brand of "Good Goods" and that he would not be able to supply them. He knew that he would have to substitute something else, and he knew that the public does not like substitution. But he was willing to have us divert our efforts to the Great Cause of Winning the War, not as a favor to us, but as a definite service to his Government.

Now, again, Green & Green products are back. The familiar green box is a welcome sight on the shelves of all those stores where it used to be before the war. Edgemont Crackers and the family of Edgemont products with all their creamy, fresh goodness are back to stay.

Just remember this; that wherever you see Green & Green products displayed by a grocer, there will you find a man who has made a sacrifice willingly, and during those past six months has been doing his bit. For "He also fights who helps a fighter fight."

The Green & Green Co.

CUT SALARIES OF MINISTERS

Munich, January 20.—(By Correspondent of the Associated Press)—Much speculation has been caused by the question of what the "revolutionary ministry" is costing the state of Bavaria, especially in comparison with the former ministry. There are eight ministers in the cabinet today, and each draws \$4,500, making a total of \$36,000. To this must be added the pensions of the seven ministers who were removed, also \$4,500 each, making a grand total of \$62,500.

The salaries today are considerably more modest than those paid the old cabinet which, with pensions totaled \$84,250. The new state of affairs is therefore, so far as the cabinet is concerned, nearly \$20,000 cheaper. This may be almost equalized, however, by the expected expenditure of \$15,000 annually for the new ministry for social affairs.

It may be that we had this year's winter last winter.—Detroit News.

WHY PORK'S HIGH

Springfield, O., February 20.—One of the biggest sales of Duroc Jersey hogs was held Wednesday by Ira Jackson near Tippecanoe City. Fifty-three hogs sold for an average of \$1,050. One sow was sold to the Pine Crest Farm of Mississippi, for \$3,500. Jackson's Top King, a boar brought the top price, going to F. C. Goodbar of Tennessee, for \$10,500. Fifty-four

hogs in all were sold at a total price of \$65,800.

HUNGARY FACES
CHAOS BECAUSE
OF RED ACTIVITY

Work of Bolsheviks is Creating
 Serious Condition Generally

Vienna, January 13.—(Correspond-
 ence of The Associated Press)—The
 menace of Bolshevism has created a
 critical situation in Hun-
 gary whose general outlook is con-
 sidered infinitely worse than in Ger-
 man-Austria. Under the present
 government the condition of the
 country is described as chaotic and
 a serious Bolshevik outbreak is ex-
 pected. With its army disbanded the
 government is unable to offer resist-
 ance even if it had the courage and
 energy to do so.

Public moneys, it is asserted, are
 being "squandered" at an "appalling
 rate" and leading financiers express
 fear of bankruptcy of the state. The
 whole situation of the country is re-
 ported to be "inconceivably worse
 than at any time during the four
 years of war."

The government is preparing to
 hold general elections but under the
 present conditions this appears to be
 a physical impossibility. There are
 no lists of voters, and the franchise
 has been extended from 1,500,000 to
 7,000,000 including women who have
 been granted suffrage. With part of
 the country occupied by enemies,
 elections in these districts will be
 impossible, it is declared.

The fear of Bolshevism is growing
 daily and everywhere the people are
 urging that the Allies intervene.
 They express the fear that the con-
 ditions now existing in Russia will
 be repeated in Hungary. Hungarian
 prisoners of war have returned from
 Russia imbued with Bolshevik ideas
 and are spreading the propaganda.
 It is the general opinion of the people
 that the Karolyi Cabinet made a
 mistake in disbanding the army leav-

A GREAT CHANGE
ENTERS INTO LIFE
OF STOREKEEPER

A certain unassuming gentleman in
 this city who happens to be a promi-
 nent merchant and who up to a few
 weeks ago had become a redoubtable
 force in the physical condition of his
 remarkable and most interesting tale:

"For a number of years," he said, "I
 have been so closely confined to my
 business working regularly to make my
 store representative, in every respect
 that wear and tear finally got me, my
 face became drawn and haggard and
 my disposition seemed to urge people
 to despise me. It was then that I began
 to evade my own company."

My bookkeeper one day suggested that
 I should rest and that my nerves re-
 quired attention. She told me that her
 father had taken Phosphated Iron when
 in my condition. "Look at him now," she
 said. "He works ten hours a day and is
 the happiest man in the world."

"All this happened less than a month
 ago. I followed the advice and look at
 me now. Back in the harness with a
 smile all the while. I am feeling
 more fit than ever. When I see a tired
 looking face the name of Phosphated
 Iron immediately comes in my mind. I
 am convinced that it is converting
 many a worn out body into a life rich
 in thought, ambition and enthusiasm."

Special Notice: To insure doctors
 and their patients getting the Genuine
 Phosphated Iron we have put in cap-
 sules only, so do not allow dealers to
 sell you pills or tablets.

CO-OPERATION
FOR THIS STORE

Cleveland, Ohio, Feb. 20.—(Asso-
 ciated Press Correspondent)—A co-
 operative wholesale and retail store
 to engage at the store in the grocery
 business, is planned for Cleveland by
 organized railroad workers. The
 four brotherhoods. Preliminary steps
 to organize a co-operative company
 will be taken here soon, according to
 John F. McNamee, editor and man-
 ager of the Locomotive Firemen and
 Engineers' Magazine.

The firemen and engineers have
 co-operative stores in Crestline and
 Toledo, and are planning others. The
 wholesale business in Cleveland
 would supply co-operative stores here
 and in other parts of Ohio, Pittsburg
 and St. Louis have similar stores.

Those backing the plan say the co-
 operative stores, elevators and coal
 mines in Illinois will furnish their
 models, and that the whole co-opera-
 tive movement in America is develop-
 ing along lines laid down in Eng-
 land.

YANK OFFICERS
HUNT WILD HOGS

Romagen, Germany, January 30.—
 (By Associated Press Correspondent)—
 Wild boar hunting has become a
 regular sport among the officers of
 the American army of occupation in
 the hills along the Rhine in the vic-
 inity of Romagen. Several hunting
 parties have been held and several
 boars were bagged by each party. A
 number of hunting preserves are owned
 by wealthy Germans in the vicin-
 ity of Romagen and it was within
 these reservations that the hunts have
 been being placed by permission of
 the owners. The ordinary army rifle
 was used by the Americans in the
 wild boar drives.
